EDUCATION

IT Park Khanka

Software Engineering & Full-Stack Development Training

Khanka, Uzbekistan

Present

EXPERIENCE

Frontend & Full-Stack Developer (Aspiring)

Independent Developer / CodeNest Community

Present

Khanka, Uzbekistan

- Developed and deployed responsive web interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Configured and managed Linux-based developer environments for local server testing and deployment workflows.
- Managed source code versions, branching strategies, and collaboration workflows using Git and GitHub across multiple projects.

PROJECTS

Personal Portfolio Website | *Next.js, Tailwind CSS, Supabase, Vercel*

[Live Demo](#)

- Engineered a modern, responsive full-stack portfolio website to showcase technical projects, skills, and background.
- Centralized all project links and work samples, allowing recruiters and peers to easily explore all active creations in one place.

CodeNest Community Platform | *Next.js, Tailwind CSS, Git/GitHub*

- Designed and developed an official community landing page and platform for technical peer reviews and networking.
- Utilized Git for version control and deployed the application seamlessly on modern cloud hosting services.

3D Minecraft Clone | *Python, Ursina Engine, Git*

- Developed a custom 3D block-building game featuring terrain boundaries, custom block texturing, and saving states.
